

We invite you to attend the Cancer Diagnostics Conference, which will take place November 16-17, 2015 in San Francisco, CA. The conference will bring together an exciting balance of industry and academia, so that delegates have the unique opportunity to network with colleagues from different sectors and discuss new research in cancer diagnostics, including next generation sequencing, the use of clinical utility of cell-free DNA liquid biopsy, patient selection for cancer drug development, and correlative predictive markers.

Sessions include:

- I. Next Generation Sequencing in Cancer Diagnosis
- II. The Clinical Utility of Cell-Free Nucleic Acids for Liquid Biopsy
- III. Patient Selection for Cancer Drug Development
- IV. Correlative Predictive Markers for Immunotherapy & Immuno-Oncology
